

INTERFIT

ELBOWS

**FOR HYDROCARBON PROCESSING
POWERGEN & INDUSTRY**

INTERFIT: 60 YEARS OF EXPERIENCE

Interfit is located in Maubeuge, France, at the heart of historical steel & tube industrial area, close to Paris and to the International port of Antwerp. Interfit has been manufacturing and selling seamless and welded buttweld elbows on carbon steel for more than 60 years.

Interfit is part of Allied International Group, worldwide group of high quality fittings manufacturers, is recognized as one of the most reliable partner for distribution and projects. Our worldwide network of 12 factories, 8 offices, 6 warehouses through Allied Group give us a global reach over than 40 countries.

FIT TO YOUR APPLICATIONS

Our seamless elbows up to 30" OD are designed and manufactured to meet the requirements of 3 major challenging industrial sectors.

OIL & GAS

Midstream / Downstream

- Refineries
- Petrochemical plants
- Processing units
- FPSO

POWER GENERATION

- Boilers
- Steam piping

INDUSTRY

MANY REASONS TO CHOOSE INTERFIT ELBOWS

The Interfit butt-weld elbows are used in many varied applications such as:

- Oil&Gas transportation
- Refining & Distribution
- Terminal construction
- Offshore exploration
- Production platforms
- Chemical & Petrochemical
- Cold & Hot Water
- Steam generation
- Industrial gases
- Furnace building
- Ship building
- Food industry equipment

MAJOR APPROVALS

We are proud to be partner of all the major players in Oil & Gas, Powergen and Industry, among which:

ADNOC
ARAMCO
CHEVRON
CRN
EXXON MOBIL
KNPC
OXY
PDO
REPSOL
TOTAL
ETC...

With our new furnace and our advanced in-house laboratory we can answer every one of your needs with top quality.

We deliver to your specifications, to your schedule and to the highest quality, safety and environmental standards. The Quality Manual sets out the full control system of the plant together with the procedures and instruction involved. These are in accordance with the requirements of ISO 9002, API Spec Q1 and other international standards. Every enquiry or order without exception is handled in accordance with the system laid down in the Quality Manual.

Production, inspection and both destructive and non destructive testing are defined in a strictly controlled sequence of operations and information is constantly fed back to form a statistical data base for process control.

RAW MATERIAL

Seamless elbows are manufactured exclusively from premium pipe sourced in western Europe. Pipes are stored in segregated lots to ensure optimum traceability conditions during the manufacturing process.

Interfit provides full traceability of the product, right from the pipe sourcing to the full set of certificates, through each step of the manufacturing and testing process, in line with its company policy and warranty and benefiting each customer to the full.

GUARANTEED TRACEABILITY

Traceability of the product is guaranteed by die stamping with identification and other information including our manufacturing trade mark as required by the standard. Careful packaging in cartons or on pallets and an advanced system of production control permitting a fast rotation of all the products of the complete range, ensure the best service to our customers.
